We understand that your success is our success

ABOUT

Hardrock Engineering Ltd is a local Ugandan company offering power back up solutions, including the sale and rental of diesel generators, as well as renewable energy solutions primarily focusing on solar power solutions. We have built a reputation of delivering quality products, services, and ensuring customer satisfaction.

We offer comprehensive product support, including parts and service. Additionally we provide installations for all products sold by us.

Our product support team is fully equipped in handling diverse projects, ranging from turnkey solutions involving synchronisation of multiple power sources (DG sets) to straightforward automation systems for generators. Additionally, we specialise in developing hybrid systems, incorporating solar, grid and generators, designed to meet the needs of both commercial and residential buildings.

Our products

- Diesel Generators
- Solar Panels
- Batteries
- Inverters
- Petrol Generators
- Spare Parts

Mission Statement

Our mission is to run profitable businesses and cultivate mutually beneficial relationships. We are committed to hiring the best people for the job and promoting continuous self-improvement within our staff.

Vision

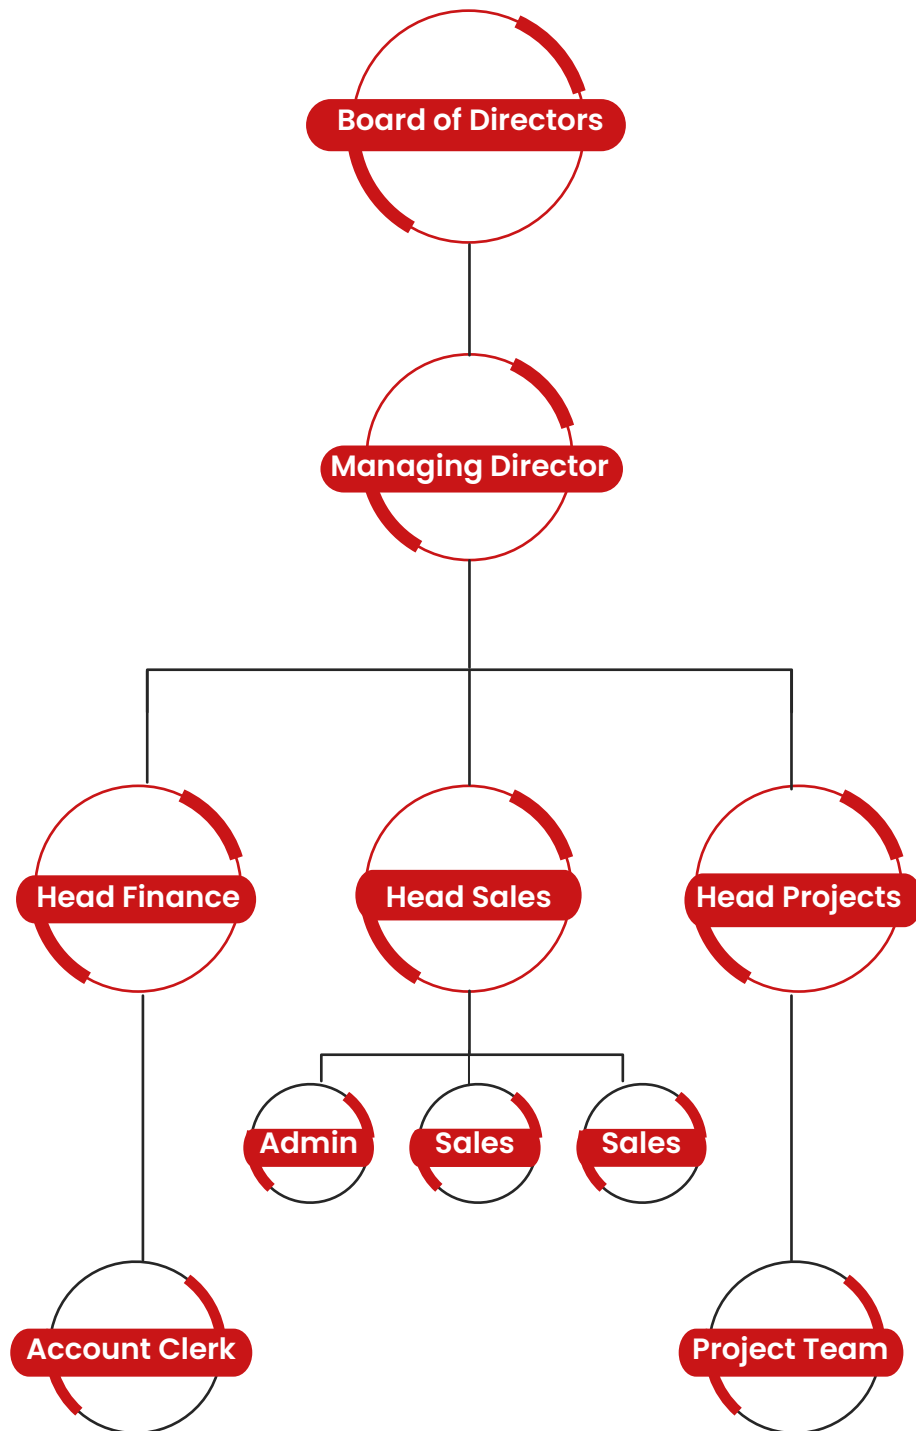

To be the foremost provider of renewable energy and power solutions in the region.

Values

We aim to be the most competitive company in the markets and products we operate in, achieved through a focus on people, teams and profits.

Organisation Structure

Our Products

Generators

Provide reliable efficient power backup solutions for your home, office, factory or industry.

We offer diesel generators ranging from 10kva, 20kva, 30kva to 2000kva. Our generators are both the silent generators with canopy and the open set type. We carefully source our brand new generators from UK and China from suppliers like Powerlink, AGG and DEPCO power.

We offer complete solutions ranging from supply-only to turn key projects that may involve programming and synchronisation projects. Our used generators are carefully sourced from UK giving our customers first class used equipment that has been thoroughly checked and tested to meet customer expectations. We offer a wide choice of engines including Perkins generators, Caterpillar, Cummins generators, Honda, Deutz, Kubota and many other worldclass brands.

Solar Product Range

We provide you with world class, high-tech solar panels from renown manufacturers like Jinko, Solarborn. Our technical sales team is ready to provide you with complete green energy solutions including PV panels, battery, inverter system.

Our energy storage systems(ESS) for both residential or commercial will help you reduce and cut down your power bills at the same time giving your home, office or factory uninterrupted power supply.

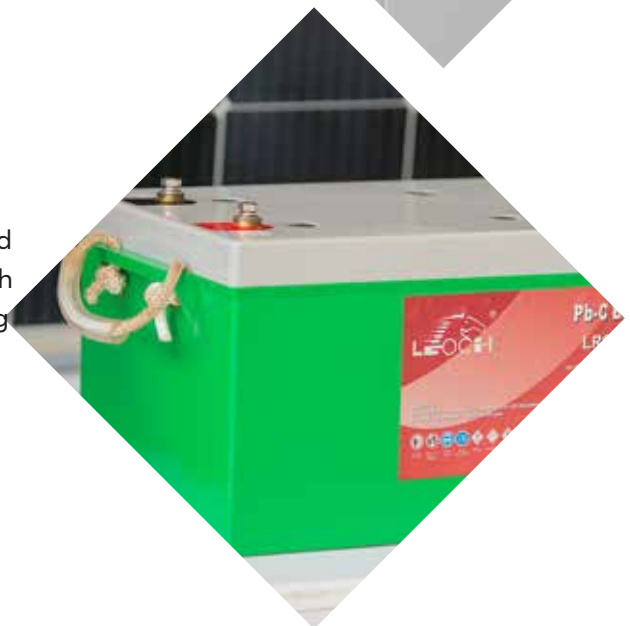

Stabilisers and Uninterrupted Power Supply (UPS)

Protecting your equipment from Voltage spikes is crucial. Hardrock's Voltage stabilisers and UPS ensure a stable power supply, safeguarding your devices and preventing potential damage.

Batteries

We provide high quality batteries, GEL and lead carbon batteries. Our batteries are sourced with care from renown brands with aim of exceeding customer expectations.

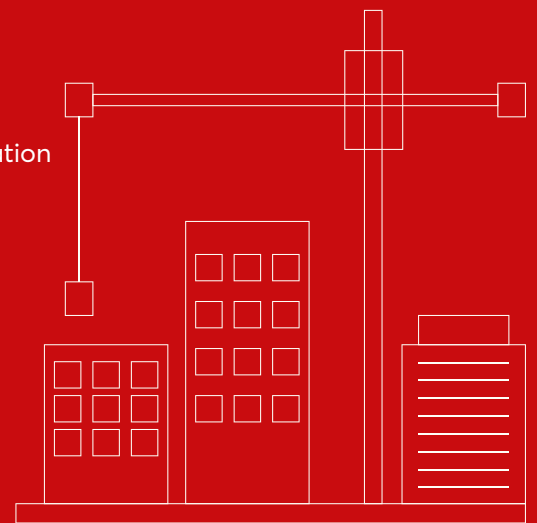

Our Services

Transmission Lines Construction

Our engineers have experience handling powerline projects right from design stage, surveying, social and environmental impact management to actual installations of electrical equipment like cables, transformers etc.

We have experience with Worldbank funded projects and Rural Electrification projects like TBEA..

Generator Maintenance

We have specialised team to take of your generator. We do repairs on call off order or full annual service level agreements for both single unit owners and fleet owners like banks, petroleum companies. We take care of the life of your generator and let you concentrate on your business.

Telecom

Our team's diverse expertise in telecom projects, from solar installations, collocation projects to tower construction and civil works, demonstrates a comprehensive capability in handling various aspects of telecommunications infrastructure. This breadth of experience positions Hardrock well for BTS installations and tower construction projects encompassing both civil and electromechanical aspects
